- 2x loop with velcro 4x32cm
- 2x loop with velcro 4x24cm
- 2x dividers with velcro

Particularly light and stable

Smooth-running castors

Modularly customisable

Extendable Telescopic rod with Push button

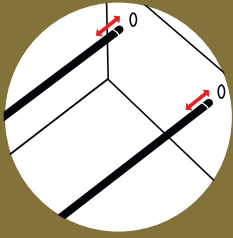

Made from robust 400D polyester

Zip with Lock slider

Instructions

Before use, the two rods supplied must be inserted into the in the spaces provided for them. Slide them in from above and fasten them to the side walls with the Velcro straps to the side walls after they have been placed.

More order. The dividers are fitted with Velcro and can be positioned as desired. In the upright position, the heaviest items should be at the bottom. It is best to start with the waistcoat or the chestrig. Sensitive parts like helmet with headset should be placed on top or in the middle.

Personalise your bag with additional specialised NB pockets. Adapted to your use and your needs.
