9 mm Luger

The new high performance precision cartridge for the most demanding of sporting applications. On the technical side, the GECO 9 mm HEXAGON is a hollow point cartridge. Unlike ordinary hollow point cartridges, which are designed for deformation and expansion, the HEXAGON is created for optimal accuracy. This development is highly innovative – a combination of German engineering and Swiss precision.

GECO HEXAGON (pistol cartridge)

The high performance precision cartridge for the most demanding of sporting applications. On the technical side, the GECO 9 mm HEXAGON is a hollow point cartridge. Unlike ordinary hollow point cartridges, which are designed for deformation and expansion, the HEXAGON is created for optimal accuracy. This development is highly innovative - a combination of German engineering and Swiss precision.

The most important product features:

- 1) **Aerodynamically favourable silhouette** for a flatter trajectory
- 2) **6 stabilisation grooves** produce a "golf ball effect"
- 3) **Centre of gravity optimised** and moved back for better precision
- 4) **Improved barrel** fit due to the long cylindrical shank

Construction GECO HEXAGON

1. **Closed base** eliminates lead emissions
2. **High-performance propellant** for uniform velocity
3. **Precision case** with optimised concentricity
4. **NATO-approved SINTOX primer** containing no heavy metals
