

SPEAR

GOGGLE

MIL-PRF-32432A | STANAG 2920/4296 | ANSI Z.87 | EN166B

When creating SPEAR, we took the traditional goggle format and added purpose-driven features to maximize comfort and protection. It has a SPEAR Elastic Strap with Tri-Glide System to adjust length and quick release key connections; it is compatible with the Wiley X ARC Rail Attachment System (RAS), providing you a secure and comfortable fit,

when using a tactical helmet; and it has a removable gasket (Facial Cavity™ Seal) for added defense against pollutants and irritants. This, matched with its symmetrical venting system and its NVG compatibility, the SPEAR is a solid and versatile addition to your arsenal of protective equipment.

RAIL ATTACHMENT SYSTEM - RAS

SOLD SEPARATELY

The Rail Attachment System (RAS) makes it possible to integrate Wiley X goggles into your helmet rail system. The RAS includes two short straps with two RAS clips and two RAS bars to give a perfect fit for most of the ARC helmet rails available on the market.

RAIL ATTACHMENT CLIP

RAIL ATTACHMENT BAR

PRESCRIPTION CARRIER

SOLD SEPARATELY

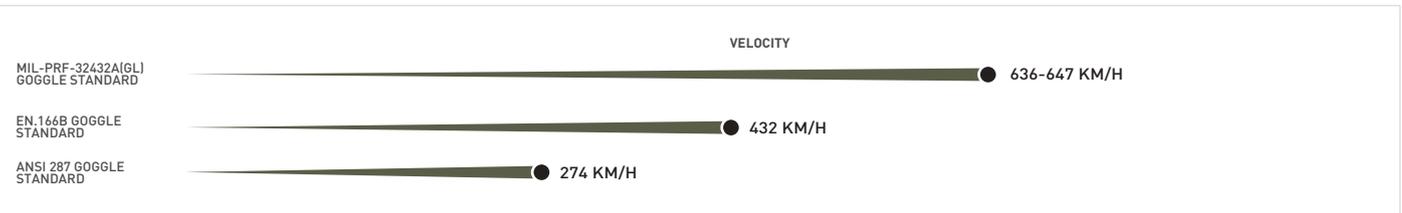

Insert a prescription carrier into the goggles for corrected vision behind high impact protection.

WEIGHT (WITHOUT PRESCRIPTION LENSES): 3 GRAM

IMPACT PERFORMANCE

Founded on supplying military forces and law enforcement personnel with top-of-the-line ballistic eyewear, Wiley X continues to hold safety as our priority, making sure to meet international expectations and accredited test standards. This model passes the following tests:
